20	James Connor	Kent A.C.	26:57

In cases where Leg 11 runners took part in the mass start at 4:00 pm they ran a single lap when they were due to run two laps.

Their theoretical time for the two laps has been calculated as exactly double their time for the single lap.

This is to attempt to put the team in their approximate correct position. It has not adversely affected any other team as these teams are the last 5 finishers plus one incomplete team.

These runners are marked with the symbol ! .
